HARVARD-YALE.

Cambridge, Mass., Nov. 21.—Harvard struggled bravely against Yale to day in their annual foot ball match, but was defeated 16 to 0, principally because her offense weakened and Yale's defense grew stronger as the crimson players were within striking distance of the Yale goal. While the game was not as spectacular as that between Yale and Princeton a week ago, better foot ball was played and for the first half and for several minutes in the second the score was small enough to make the result uncertain. In fact, after Harvard had shown sufficient speed to get twice inside Yale's five-yard line in the first half, her supporters were well nigh convinced that the team would not only score but win the game. Yale's defense proved too strong, however, and backed by 15,000 voices who yelled "Hole 'em, Hole 'em," the blue line stood firm beneath its own goal bar, twice capturing the ball there on downs and in the third instance taking advantage of a fumble by a Harvard player. In the second half Harvard got within six inches of Yale's goal and yet could not score.

Lemoyne opened the game with a kick-off to Mitchell on Yale's five-yard line. Mitchell ran the ball twenty yards before he was thrown by Clothier. Yale kicked on a second down to Harvard's thirty-five-yard line, but the Yale ends came on fast and Marshall was thrown before he was well started. On the second play Marshall by a quarterback run covered 157 yards, bringing the ball into the center of the field. Two rushes more carried it four yards and then came a penalty which set Harvard back to her forty-eight-yard line. Lemoyne's kick, which followed, was a poor one, covering only twenty-two yards. Again Yale kicked on the second down, the ball going to Harvard's twenty-yard line, but this time Marshall covered nineteen yards before he was thrown. On three center plays Harvard gained ten yards, but again was penalized ten yards, which was followed by a poor pass by Parkinson and consequent loss of the ball to Yale on Harvard's fifty-seven-yard line.

Yale's offense looked strong, but after getting to Harvard's twenty-five-yard line the blue was penalized twenty yards for offside play. The teams then exchanged kicks and once more Yale started for Harvard's goal from the crimson's forty-five-yard line. After two short rushes into center Metcalf circled Harvard's right end for thirty-five yards, planting the ball on the five-yard line. It took three rushes to push Kinney over for the first score of the game. After three failures of Harvard to score kicking was resorted to, but the half ended without further score.

Yale scored again within five minutes after the second half began. Exchange of punts was followed by Yale's blocking a kick on Harvard's thirteen-yard line. The Yale team shoved Hoggan over for a touchdown, but Mitchell failed to kick goal. Harvard advanced the ball to Yale's twelve-yard line. Line plunges netted nine yards more. Here Yale braced wonderfully and held Harvard for downs. The blue rushed the ball fifteen yards and kicked. Harvard lost the ball on a blocked kick on her own thirty-yard line. From here Yale in seven rushes scored again, the third and last touchdown, and Mitchell kicked goal. Play for the balance of the game was on Yale's side of the field. Harvard managed to rush the ball to Yale's seventeen-yard line, where it was lost on downs. Yale kicked and Harvard tried for goal from placement after Yale had been penalized. The attempt failed. Again Harvard tried to reach the Yale posts and pushed the ball to the twenty-two-yard line, to lose it on downs. Yale then pushed the ball into Harvard's territory. The game closed with the ball on the crimson side of the line.

NORTHWESTERN-WISCONSIN.

Chicago, Nov. 21.—Northwestern university played a tie game with Wisconsin to day, the final score being Wisconsin 6, Northwestern 6. Both touchdowns were made in the first half. In the second half Wisconsin's offense was almost irresistible, probably 50 per cent stronger than in the first, yet they could not cross the opposing goal line. Four times Wisconsin was within striking distance, only to be held.

South goal, which was favored by a light wind. Northwestern kicked off. For some time neither side made a first down, play continuing in Wisconsin's territory. Northwestern was weak in the punting department and the net result of several exchanges was to give the ball to Wisconsin on Northwestern's fifty-yard line. A touch of hostile soil seemed to put new vigor into Wisconsin, for the team, with newly discovered vigor, proceeded to make the first consistent gains of the day, and after overcoming desperate resistance inside the Northwestern fifty-yard line pushed Wrabetz over for a touchdown. Goal was kicked and the score stood Wisconsin 6, Northwestern 0. A punt, which Wrabetz fumbled on Wisconsin's ten-yard line, figured largely in Northwestern's touchdown. An Evanston man fell on the ball end Allen, Phillips and Fieger on successive attacks made the remaining distance, Phillips going over. A few minutes later time was called.

IOWA-ILLINOIS.

Iowa City, Nov. 21.—Iowa gave the overconfident Illinois foot ball team surprise to day, winning the game 12 to 0. Features were Iowa's splendid offense and defense at critical moments. Johns, Cotard, Wetters, Griffith, Allen, Buckley and McGowan were Iowa's stars. Huntoon, McKnight and Hannum were the best ground gainers for Illinois. Iowa celebrated the unexpected victory enthusiastically to night.

Ann Arbor, Nov. 21.—A substitute Michigan eleven defeated Oberlin to day 42 to 0. Oberlin was never able to gain and made but two first downs. Michigan's fumble gave Oberlin a chance to score on a drop kick from the thirty-five-yard line and goal was narrowly missed. Stagg, Chicago university's coach, saw the game and picks Michigan as a slight favorite over Chicago for the Thanksgiving day game.

A GOOD WORK.

Attention is called to donation day next Thursday at Passavant hospital and most certainly there is no cause more worthy. It should be remembered that the institution has no endowment and has to depend entirely on voluntary contributions and the income from patients. There are many inevitable expenses which one not acquainted with the hospital would not think necessary, yet they must be met and people want their money when it is due. It should also be borne in mind that the charges for services at the hospital are far below their market worth and are only made possible by the fact that there are no expenses of administration, no salaries and no high toned pay roll, so that all the cash paid or goods contributed go entirely to the work without helping support any person as manager. A large building like that of the hospital requires constant attention and expense; fuel in winter, help, medicines, provisions and a thousand and one things all count up fast at that, so that it is necessary to ask the friends of humanity to help some. Just now a winter filter is sadly needed and to that end the friends of the hospital are respectfully requested to send in cash donations as far as able. In addition, canned goods, dry goods, vegetables and the like are always useful and should be accompanied with the name of the donor that due credit may be given.

The hospital will be open Thursday afternoon from 2 to 8 and services will be conducted at 3 o'clock. All will be welcome and are urged to come and look over the institution.

BRAKEMAN INJURED.

A. E. Barrows, a brakeman on the west bound Wabash local, No. 71, caught his hand between the bumpers of two freight cars while trying to make a coupling in the Wabash yards Saturday morning about 11 o'clock. His wrist was broken and the fleshy part of his hand badly mashed.

A handkerchief was tied about his arm to stop the bleeding and Elmer Beasler drove Barrows to the office of Dr. J. W. Haigrove, the Wabash surgeon. Dr. Haigrove dressed the wound and sent his patient to Passavant hospital. It is feared he may lose his hand.

Barrows was a new man and his home is in Meredosia. He displayed an unusual amount of nerve and never uttered a cry.

LEAVE LONDON.

London, Nov. 21.—Much ceremony attended the departure to day from Windsor of King Victor Emmanuel and Queen Helena of Italy. The procession from the castle to the railway station was similar to the one witnessed on the occasion of their arrival. Crowds gave the visitors a most cordial send-off.

BANK ROBBERED.

Sedalia, Mo., Nov. 21.—The Citizens bank of Clarkburg, Monticou county, was broken into last night, the safe blown open and all money in the bank taken. Officers decline to state the sum.

AN ARMY CHANGE.

Omaha, Nov. 21.—Major Gen. John C. Bates, commanding the department of lakes and Missouri, to day transferred the department of Missouri to the new commandant.

THE VALUE OF OUR SCHOOLS

PRACTICE SUGGESTIONS BY DR. J. R. HARKER

Educational Institutions of City a Valuable Asset—Millions Invested—Annuities Needed to Meet Growing Demands.

The following communication from the pen of Dr. J. R. Harker calls attention to the splendid value and significance of the educational institutions of Jacksonville, and suggests the cultivation of a spirit of generous giving by means of annuities for the purpose of increasing the usefulness and widening the sphere of influence of these splendid assets of the city's wealth.

Editor Journal: While there are many cities in Illinois that out-strip Jacksonville in business, enterprise and activity, there is one respect in which our city outranks all others, not only in Illinois, but perhaps in all the west, and that is as a city of institutions and schools. It speaks well for the enterprise and foresight of the citizens in this community, that they secured the location here of the Illinois college, the Female academy, the Illinois Woman's college, the Central State hospital for the insane, the State School for the Blind, the Passavant hospital, Our Saviour's hospital, the public library and the Old People's home. I doubt whether an equal list of schools and institutions can be found in any other city in the whole country, excepting the great metropolitan centers.

It cannot be questioned that the development and growth of our city have been due mainly to the presence of these institutions. They have made Jacksonville one of the most desirable residence cities of the whole country. They have given to it its peculiar characteristics of refinement and culture. The fact of their location here has brought and kept here most of our best and most desirable citizens. They have been and are the richest assets of the city, better than coal mines or manufacturing plants.

It is well to emphasize the fact that the plants of nearly all these institutions have been given to Jacksonville from outside sources. The state has generously donated vast sums of money for its institutions here. Illinois college has a plant worth not far from a quarter of a million dollars, and an endowment of two hundred thousand more. The Woman's college has a plant worth one hundred and sixty thousand. The public library has a building worth nearly fifty thousand dollars. All the state and educational and charitable institutions of our city cannot be less than three or four million dollars, only a very small part of which has been contributed by the citizens of Jacksonville.

It can, therefore, be very truly said of us of the present generation here in Jacksonville that "we are living in houses that we have not builded; we are drinking from wells we have not digged; we are enjoying the fruit of trees we have not planted."

By the forethought and zeal and energy of several of our early citizens a channel was dug from the state treasury to Jacksonville, along which large sums of money flow year by year for the building and equipment and maintenance of our state institutions. And by the tireless energy and zeal of Beecher, Sturtevant, Crampton, Tanner, Cartwright, Akers, Mathers, Thomas and others, channels have been dug from outside sources to our city, along which money has flowed for the building and equipment and maintenance of our educational and charitable institutions.

These are great legacies that we are enjoying, and we who live here now need to ponder these things in order to appreciate them. In a general way I think we do appreciate them, but not as fully as we should. If we did not have the Illinois college or the Woman's college, or any of the state institutions, and an offer should be made to locate them here, I have no doubt the citizens would quickly contribute large sums of money to secure them. These colleges are helping Jacksonville in many ways, and the citizens here ought to respond generously on any wise proposition for their enlargement or improvement. Many of our citizens are doing this liberally, and do respond nobly, but there are many who are not doing so to the extent of their ability.

I wish to call attention to two forms of help, which afford a great opportunity for the upbuilding of our educational and charitable institutions, and which have as yet been little used in Jacksonville. The method of

in the record of the Woman's college that for the first fifty years of its history, no friend ever left it a dollar by bequest or on annuity. The same thing was true, until quite recently, of Illinois college, and of several of the other institutions. Only within the last decade has a noble beginning been made in these directions. Dr. and Mrs. Van Welch and Dr. Jones for the Illinois college; Mrs. Elizabeth Brecken, Mrs. Mary McElfresh Bennett and Mrs. Susan Rapp Platt, for the Woman's college; Mrs. Keiser and Mrs. Henderson, for the Old People's home; Mr. Runtt, for Our Saviour's hospital, and Mr. Nichols, for a city park. All honor to such public benefactors. Their names should be held in grateful public remembrance. Their gifts to these institutions will be a more lasting memorial than any monument of marble, and their money thus contributed will bless the community for all its future.

The method of annuity is a very excellent method, and can be adopted by many persons in our city. The institution gets the use of the money at once, and the donor secures an income on the amount for life, or for a term of years, and has the satisfaction of seeing the good he is doing. Any of the presidents or managers would be glad to talk with any one about this method.

The method of bequest can be adopted by a still larger number. A great many people in Jacksonville now have estates of such value as to require that they should make a will. It should become a custom here, as it is quite generally in the east, to select some worthy cause, and leave it a reasonable part of the estate. In very few cases could surviving children or friends properly object to such reasonable remembrance. In most instances they would rejoice in it.

I am not making a special plea for the Woman's college, and yet I am sure it has many friends in the city who can help it in one or other of these ways. But we have interests enough here to touch the life of everybody. If one wants to help the cause of education, he has his choice between a school for women only, and a co-educational school. If he is not specially interested in education, he can help the hospitals, either Catholic or Protestant, or he can help the Old People's home, or the public library, or he can help in the good cause of city parks, so generously begun. What an excellent opportunity for some wealthy citizen to help the city to a good water supply! But, for has a right to hope that in some form either by direct gift, or by annuity, or by will, our people will more and more remember our city and its institutions; and there should be a feeling of public disappointment when any citizen leaves any considerable estate without some such provision.

Just one word more, as an important additional reason. It can almost be guaranteed that every dollar thus given by our own citizens will bring two dollars to our city from outside sources. This has been my experience for the Woman's college, and I would gladly take up a conditional offer of this kind.

Lowell says in his Vision of Sir Launfal: "Who gives himself with his alms feeds three."

and any citizen of Jacksonville who gives a thousand dollars will really help the institution to three times that amount.

The educational and charitable institutions are the pride and chief adornment of our city. I plead for their hearty appreciation, and especially for their remembrance by our citizens either by annuity or by bequest.

Many of our people are looking for a good investment for their money. I submit that they can find none more profitable than to invest in the permanent institutions of our own city.

Joseph R. Harker.

Boston, Nov. 21.—Samuel Gompers was re-elected president of the American Federation of Labor to day over Ernest Kreft, of Philadelphia, socialist, by a majority greater than that by which a few days ago was defeated the resolution to pledge the federation to socialism. Gompers' vote was 12,524; Kreft's, 1,184. The six vice presidents all were re-elected, though the socialists attempted to defeat Thomas A. Kidd, of Chicago, by nominating John W. Slayton, of New Castle, Pa.

FORCED TO SHARE SALARY.

Dubuque, Iowa, Nov. 21.—Former Deputy Internal Revenue Collector Milton Howe, of this district, has fled an affidavit with the department, charging Collector J. U. Sammis with having compelled him, when deputy, to share his salary with the collector's brother, an under deputy, contrary to the statutes.

Grand Rapids, Mich., Nov. 21.—As the result of the confession made by former City Attorney Lant K. Salisbury, warrants were issued to day for seventeen former city officials, charging them with accepting bribes ranging from \$250 to \$500 in connection with the famous Garman-Cameron scheme of supplying the city with water.

A HITCH IN NEGOTIATIONS

STREET CAR STRIKE NOT YET SETTLED

Company Makes Some Concessions But Not Near What the Men Demand—Mass Meeting of Union Men Today—Another Riot Indulged in.

Chicago, Nov. 21.—The street car strike has settled down for the time being at least to a bargaining proposition. Negotiations have been in progress all day and will continue through to morrow. The result to night is that the company presented their answer to the last proposition of the union, which makes some concessions in the matter of routing cars, but does not grant anywhere near what the men have been demanding.

Immediately after the last conference of the day union officials left the room with displeasure on their faces and evidently not in the best of humor. They went at once to the office of one of their advisers to formulate a reply to the company's answer. This will be submitted to morrow and the company will make another reply.

The conference this afternoon was somewhat heated and voices of the men could be heard in the outer hall as they argued propositions involved. When President Mahon of the street car men's organization came out of the meeting he would make no statement and Colonel Bliss, the company's attorney, would only say: "We have just been discussing how to run a street railway."

Attorney Prentice for the union said after he had reached his office: "There is no immediate chance of settlement. I hope we can reach an agreement, but nothing has been accomplished yet."

The present hitch in negotiations is understood to be over outting of cars, the men having waived their demand for exclusive employment of union men and their right to pass with authority upon the discharge of employees. On the question of wages there has never been any trouble, both sides having been willing from the first to arbitrate that question.

A great mass meeting of union men will be held to morrow to discuss the strike. It is expected by labor leaders it will be one of the largest gatherings of the kind ever held in this city.

A RIOT.

While the work of mediation of the street car strike was going on to day between Attorney Bliss for the company and Attorney Darrow for the strikers a riot in which several thousand men, women and children took part occurred in Archer avenue. A mob which gathered to intercept a number of wagons, under escort, conveying food to the car barns, charged the police and constables. A constable was struck on the head by a stone and badly cut. Police drew revolvers and finally drove the rioters back, the latter consoling themselves by burning a wagon previously wrecked in the vicinity of the barns.

Late to night union officials had formulated their reply to the last proposition of the company and expressed themselves as confident it would meet with approval of directors of the company.

KILLED BY EXPLOSION

Cripple Creek, Colo., Nov. 21.—Charles McCormick, superintendent, and Melvin H. Beck, miner, were killed to day by an explosion in the Vinciguerra mine. Officers of the company assert the explosion was caused by an internal machine and 400 militia men have been placed on guard around the company's properties.

McCormick and Beck were descending into the mine in a cage. When it reached the sixth level an explosion occurred, wrecking the cage and shaft and instantly killing both men. The bodies were recovered after several hours work. "The company claims a machine containing a large quantity of dynamite was placed near the shaft at the sixth level and that a revolver was so placed as to be fired by the descending cage, the bullet striking the dynamite and causing an explosion. Portions of a revolver were found.

ORDERED TO DENVER.

Omaha, Nov. 21.—Major John C. Bates received orders to report for duty at Denver. The order came from the war department at Washington, but Bates refused to discuss its contents. Asked if the strike of Colorado miners was responsible for his going west, the general said he was unable to reply.

Washington, Nov. 21.—General Bates was ordered by the war department from Omaha to Denver to investigate the labor trouble with a view of ascertaining if federal troops are necessary there.

BURNED TO DEATH.

Somerset, Pa., Nov. 21.—Three persons were burned to death early to day in a fire which destroyed the power house of a sanitarium at Markleton, near here.

TO BE HANGED.

Ottumwa, Iowa, Nov. 21.—Joseph Smith to day pleaded guilty to the murder of Mrs. Mary Ann Smith at Burlington, Oct. 18, and was sentenced to be hanged.

AFTER ASSISTANCE

Coaling Station May be Offered the United States by San Domingo.

San Juan, Porto Rico, Nov. 21.—Senator Galvan, foreign minister of the republic of Santo Domingo, has arrived here on the way to Washington, where, it is said on high authority, he will offer Samana bay as a coaling station in exchange for United States support of the government. President Gil will make desperate resistance to the rebels before the capital pending Galvan's arrival at Washington.

WASHINGTON NEWS

Washington, Nov. 21.—The senate committee on foreign relations to day had the Cuban treaty under consideration and also naturalization treaty with Hayti, but did not take action on either. A legal question was raised in connection with the Cuban treaty and it was referred to Senator Spooner for investigation. The Haytian agreement was referred to Senator Lodge.

Commissioner of Pensions Ware has decided Mexican war veterans who are on the rolls at \$8 per month are entitled to an increase to \$12 a month despite conflict of declarations as to what constitutes the sixty-day service required of these veterans.

Postmaster General Payne and Arthur Taft, British charge d'affaires, to day signed a parcels post treaty with Hong Kong and it will be approved immediately by President Roosevelt. The treaty will take effect Jan. 1 next.

GEN. WOOD'S CASE

Washington, Nov. 21.—The senate military committee to day continued investigation of the charges against General Wood. The committee decided to exclude hearsay testimony, if even supported by documents known to be on file at the war department, as was that of witnesses who told of general impressions, mingling acceptance of gifts from the Jal Alai company by General and Mrs. Wood.

The most important witness to day was Ernest L. Conant, of Havana, who told of having heard that when a concession was granted the Jal Alai company the shareholders presented General and Mrs. Wood with a silver dinner set costing \$5,000. This testimony was ruled out.

"If Gen. Leonard Wood were on trial for his life he would not receive instructions from court more favorable than the ruling which has been made by the committee in the conduct of the present investigation," said a member of the committee when asked concerning methods used in dealing with witnesses examined. It is believed that this evidence will go before the senate in executive session and in vent of decision by the committee favorable to Wood will be transferred to the floor of the senate.

Secretary Root, in response to a request from the senate military committee, has sent a report on the military record of General Wood. It is a strong commendation of that officer. The secretary reviews his career, pointing out that he was first a line officer, then became surgeon, then surgeon general and obtained command of troops in the Geronimo campaign and this connection appended letters of commendation by General Miles and the late General Lawton. Also points out Wood's services during the Spanish war and calls attention to the fact he had been five times named as general officer, twice as brigadier general of volunteers, once as major general of volunteers, once as brigadier general of regular army, and again as major general of the regular army. Root in his letter makes no reference or reply to charges that have been made against Wood as military governor of Cuba.

A MINE DISASTER

Connellsville, Pa., Nov. 21.—The "Hill Farm" mine added ten more victims to its black record to day. Just as the day shift had about completed its labors and was about to leave the Ferguson mine a terrific explosion rent the interior of the mine and General Lawrence, who was in the vicinity were thrown in all directions, the roof came tumbling down and the close air of the mine became stupefying. Only nine succeeded in reaching the pit mouth alive. They were picked up by a rescue general taken to the hospital. The bodies of the other ten were found lying in all shapes, horribly burned, when the rescuing party reached them to night.

Experts believe the fire which has been raging in the "Hill Farm" mine since the disaster of 1890 broke through walls erected between the "Hill Farm" and Ferguson mines and caused the explosion.

SENATOR GREEN'S CASE.

Binghamton, N. Y., Nov. 21.—The hearing of the case of Senator Green, charged with bribery and conspiracy in connection with sale to the government of stamp cancelling machines, closed to night. Commissioner Hall reserved decision.

ACQUITTED OF MURDER.

Stevens Point, Wis., Nov. 21.—Mrs. Harroun, accused of poisoning her husband, was acquitted by the jury to night.

ELECTRICAL EXPERIMENTS.

Berlin, Nov. 21.—High speed electrical experiments on the Marienfeld-Zossen railroad ended for the season to day. The speed of 130 1/2 miles per hour attained three weeks ago has not been surpassed.

About \$1,000,000 has been expended with our financial return, in demonstrating the economical working of 100 miles velocity. The company which is conducting the experiments has not decided how to utilize the results reached, but tentative communications have been opened with some electrical railway men of the United States, which have not yet taken definite form.

WERE BURNED TO DEATH

TWENTY SEVEN MEN LOSE THEIR LIVES.

Shanty in Which One Hundred Italian Laborers Were Asleep Caught Fire—Many Injured Trying to Escape.

Johnstown, Pa., Nov. 21.—While over a hundred Italian railroad laborers were asleep in a shanty near Lilly to day the building caught fire and before the foreigners could escape at least twenty-seven were burned to death and a score or more seriously injured. The men were employed on Pennsylvania railroad improvements. The shanty was about one hundred feet long, one story in height and the men slept in bunks like sardines in a can. There was only one door at each end and windows were few and small. The fire is supposed to have started from an overheated stove. The building burned like tinder and the flames were upon the men before any of them were aroused. This began a struggle for life. They fought and scrambled for the doors. The weaker were crushed down and trampled upon.

When the alarm of fire was given a number of men escaped, but remembering they had left their trunks in the blazing building, rushed back. The majority of those who entered never again saw the outside world. Those who strove for the door were in the wildest panic. They fought, bit and kicked and among those who escaped alive are many who bear marks of the fierce struggle which took place in the battle for life.

One of the witnesses says he does not believe a single man of those who went back for his trunk succeeded in getting out again. In the ruins some of the corpses were close beside hoop iron bands of the trunks, and melted gold and silver which had been kept in these receptacles indicated the owners had fallen and died with their treasure in their arms. The bodies were all practically burned to pieces. Peter Consoli, superintendent of the commissary, said he believed the men had at least \$5,000 in the trunks. Many of them had enough to go back to their homes and families in Italy and would soon have sailed.

COLOMBIA'S PLAN

Bogota, Nov. 21.—President Marroquin has made the following statement to the Associated Press in response to queries as to the political situation in Colombia: "Minister Beaupre and all Americans here are surrounded with every guarantee for their safety. My communications to the United States and the people of the United States make manifest the attitude of my government on the Panama question. The situation in the interior of the Colombia republic is quiet."

A man prominent in public affairs to day informed the Associated Press that the Colombian government would await the result of General Reyes' mission to Washington before deciding upon its policy regarding the republic of Panama. The general opinion here is there will be war, but that the government will first do its utmost to effect a diplomatic arrangement. Belief is expressed in government circles that the United States senate will not approve the action of President Roosevelt regarding affairs on the isthmus. All parties here have offered their aid to the government and over 100,000 volunteers have tendered their services in event of declaration of hostilities.

ERRONEOUS STATEMENT.

New York, Nov. 21.—In a dispatch under date of Bridgeport, Conn., Nov. 11, it was stated that the Corporation Finance company of this city had gone into bankruptcy. It was set forth in the dispatch that the alleged bankruptcy was the incidental result of complications into which Daniel Leroy Dresser had been plunged by his relations with the United States Shuubuilding company. The statement regarding the Corporation Finance company was wholly erroneous, the allegation that it had become bankrupt having no basis whatever in fact.

THE ISLE OF PINES.

Washington, Nov. 21.—The treaty for cession of the Isle of Pines to Cuba was to day favorably acted upon by the senate committee on foreign relations and it will be favorably reported to the senate at the next executive session.

BANK STATEMENT.

New York, Nov. 21.—Loans, decreased \$2,629,700; deposits, decreased \$6,061,700; reserve, decreased \$3,747,500; surplus, decreased \$3,227,075; United States deposits, decreased \$2,357,225.

WILL EXAMINE PRIVATE AFFAIRS.

Chicago, Nov. 21.—Bankruptcy Referee Wagon has granted leave to attorneys who are pushing inquiry into the failure some months since of Porter Brothers company to examine into the personal holdings of James B. Watson, former president of the corporation. As yet lawyers for creditors are unable to learn to their satisfaction how Watson disposed of \$1,000,000 said to have been received as rebates from the Fruit Growers' Express company since 1894.

REMEMBER THE POOR.

The Women's Christian Temperance union makes its annual appeal to the charitably disposed for contributions to be used for deserving poor Thanksgiving day. All articles will be thankfully received and carefully distributed where they will be found useful and go into worthy hands. The ladies ask for donations of fruits, vegetables, groceries, meats, all kinds of clothing for persons of both sexes, and all sizes, together with such cash gifts as persons are willing to bestow. Great care is taken to remember only the worthy in the distribution of these gifts and any giving may be reasonably certain that the donations will go into proper channels. If the ladies are willing to spend their time and efforts in this cause the least the people of the city can do will be to assist them in every way possible. All donations are asked for at the Y. M. C. A. building any time from morning until night next Wednesday. There is an opportunity to make a loan to the Heavenly Banker and the returns will be as certain as the rock of ages if given in accordance with the spirit described in the thirteenth chapter of First Corinthians.

THE AL. G. FIELD MINSTRELS.

"Minstrelsy's Tribute to the 20th Century" is the title of the production which will be presented by Al. G. Field and his entertainers. Judging from the criticisms in other newspapers this popular comedian and manager is offering a veritable revelation in modern minstrelsy, more artistic in design and elaborate in execution than anything that has preceded. Old time minstrelsy has not been relegated to oblivion, for there is much to please the devotee of the black-face act, but the production this season more closely approaches the ornate and spectacular. The first part, for instance, called "A Musical in Fountain Park," is said to be unusually beautiful and a masterpiece in stage setting, color, light effects and costumes. Here the minstrels appear in their satin coats and powdered wigs, introducing the minstrelsy of the 20th century, but on the ends are still the representatives of the burnt cork idea, mingling their jokes and ragtime melodies with the ballads of their white-faced companions. The stories are new and the songs have never been rendered here because they were written for the Al. G. Field minstrels and are sung by them alone. The choral part is a feature with the Field show this season and no expense has been spared to secure the best vocalists. Songs, dances and parodies will be introduced by Tommy Donnelly, Harry Shunk, Lester Fairman, John Blackford, Tommy Hyde, Tommy Odell, Billy Crawley and Doc Quigley, who, between them, can be depended upon to keep the audience constantly entertained and in good humor.

A great laughing conceit is "The Nigger and the Fiddle," introduced by John Blackford, the best delineator of the old time negro character on the stage to day, and Doc Quigley, conceded to be the best grotesque dancer in the profession.

Before "The Darktown Circus and Menagerie," which is one long laugh, there will be seen some novelty specialty acts imported from Europe by Mr. Field for his own big show. The Magnificent family will present their musical novelty, "The Electric Track." The Watsons are accompanied by acrobats and Percy Leigh and others are making their first American appearance in a sensational hand balancing and equilibrium exhibition that is said to be really wonderful.

PUSHING WORK ON NEW RAILROAD.

It has been so many years since actual railroad construction work has been done in this vicinity that it is not to be wondered at that hundreds of people drive out daily to watch the progress of the Jacksonville & Concord railway. Pleasant weather, too, has had a tendency to increase the number of spectators and the work has been and is being watched with the keenest interest.

The general contract for the work is in the hands of Winston Bros. & Dear, one of the biggest firms of its class in the country. They have various sub-contractors operating under them so that the work of construction is going on all along the line practically at one and the same time. Only two long bridges will be necessary, one at the crossing of the Mauvaisterre on North Main street, and the other at Lick branch, which is on the Cowdin and Woodward farms. The Mauvaisterre bridge, which will be built above the roadway, will be about 282 feet in length. The bridge at Lick branch will be 168 feet long. About 300 teams and twice as many men are working on the road and Mr. W. E. Crane, general manager of the J. & St. L., is of the opinion that the line will be ready for traffic some time in January, if weather conditions are favorable.

Some steel has already been laid, as one and a third miles from Concord is now ready for ballasting. Men also commenced recently to put down rails at the junction of Independence avenue and the right of way. By Wednesday of this week it is expected to have 4,000 feet of rails down in that locality. The work there is to be pushed forward to the extent stated for the purpose of adding much needed side track room. The J. & St. L. yards here now are congested with freight cars and siding space is so limited that great inconvenience results.

Four coal trains now come in daily over the J. & St. L. for the Burlington and that number would be doubled if enough cars could be secured. Just now the road is worried with a car shortage, but that condition will not always exist and there will be more trains. The Great Northern has a contract with mines in southern Illinois calling for 1,200 tons of

MR. WILBER E. CRANE, who has been largely instrumental in bringing about the construction of the new railroad. While always watchful for the welfare of the company he represents, he has large interests in this vicinity and is accounted an especially patriotic citizen. Mr. Crane commenced railroad work in 1881 and has been climbing the ladder ever since.

coal per day to be delivered to the Burlington at Centralia, but there has been a shortage of cars there, too, and the amount has been considerably less than 1,200 tons daily.

While the Jacksonville & Concord road is distinctly a freight road and is being built for the express purpose of adding to the freight facilities of the Burlington, passenger business will, of course, receive attention. Just what the train schedule will be has not been decided, but it is certain that there will be service to Chicago and St. Louis. If the morning train which now comes in over the J. & St. L. from Litchfield, were sent on to Concord connection would be made with a good Chicago train now at the Burlington time card. An important matter which the officials are now considering is the running of the Burlington's St. Louis trains from Beardstown via Jacksonville and Litchfield. Such a service will depend upon whether or not a satisfactory trackage agreement can be

reached with the Litchfield & Madison road for the use of their rails between Litchfield and St. Louis.

The property of the Jacksonville Midland Railroad company, which includes the J. & St. L. station and yards, will eventually pass into the hands of the Burlington. No contract has been signed, but the owners of the road have a verbal agreement with Mr. Crane as to the terms of the transfer.

A station is to be established somewhere between Jacksonville and Concord on the new road and just where, is the point which is agitating a good many farmers. The road officials have not decided the question as yet, though it is understood that the station will be at a point just about half way between Jacksonville and Concord. Several men are in readiness to build an elevator and establish a store at the station when its location is settled upon.

The people of Jacksonville in general are realizing more and more the importance of the new road to Jacksonville. It will put this city on the greatest railroad system of the country, giving good connections for many distant points. The Burlington's Chicago service is good and the proposed arrangement of running St. Louis trains via Jacksonville would mean excellent St. Louis service. While Mr. Crane would probably not admit it, the truth is that he is responsible for the building of the Jacksonville & Concord road. He has been in a position to realize the benefits to the Burlington and has continually and steadfastly advocated its construction.

With the Jacksonville & Concord road in process of construction, two electric lines and a Rock Island extension projected a new era in traffic facilities seem to be dawning for Jacksonville.

A Thanksgiving Day Reminder

Carvers: We are showing the largest and most elegant line of carvers ever brought to Jacksonville. You can't find a better line anywhere. About fifty patterns in all, from the finest genuine stag handles with sterling silver ferrules down to a pair for 75 cents. All blades made of the best English steel and fully warranted. They are the choice patterns of one of the largest manufacturers in the country. So if you are in need of carvers don't miss this sale. **Elegant case free with each good set.**

Other Things Helpful

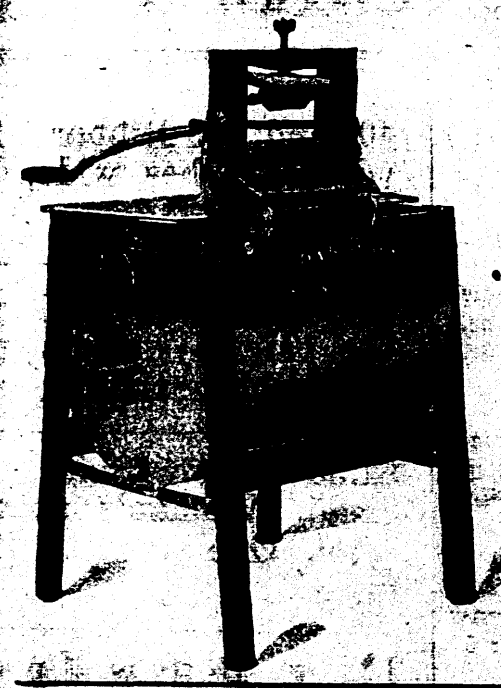

Roasting Pans, all sizes and Styles. Food Choppers, to prepare your dressing for the turkey and to be used in a hundred other useful ways about the kitchen. Tea Kettles, Pots, Pie Pans, Mixing Bowls in enameled ware, Tea Pots, Coffee Pots—in fact, everything in modern and up-to-date house-furnishings. It will pay you to call and go through this department before Thanksgiving day.

How About Your Range or Stove?

Perhaps you have an old worn out stove that won't bake or roast and is a source of continual worry to your wife. If so, discard it at once and put in one of our Quick Meals or Malleable ranges or a Bridge & Beach Superior or Eclipse Cook stove, and make your wife happy this Thanksgiving day. We will make the terms to suit you.

A Steam Washer

Here it is. The washing machine that cleans the clothes without any hand rubbing. The only one that will do it. The drudgery of wash day done away with. Our Paragon Cylinder Machine will wash anything, from the finest lace or linen to the heaviest blankets or bed clothes. It will wash from 12 to 25 pieces at once.

Whatever your prejudices may be against washers, you should try the Paragon. It does not partially cleanse the clothes, leaving them to be finished by hand, but does work perfectly, dispensing with the washboard and hand-rubbing altogether. It saves time and labor, and does not "rot" or "wad" the clothing. Try one of these machines and if it is not all we claim for it bring it back. Isn't that fair?

MATHENY & LLOYD.

(By Associated Press.)
Chicago, Nov. 21.—Wheat—White cables were rather indifferent to the big advance here yesterday the main factor causing lower prices was decline in values north- west. The situation as a whole remained about the same as the past few days, but local traders who bought yesterday were inclined to secure profits, and although the market was supported by some big in- terests declining tendency was noticeable. The weather was decidedly favorable and receipts northwest continued small. Trading principally in May and that month was little firmer than December, closing 1/2c lower. December closed 1/2c lower. On the coast twenty boat loads were taken. Liverpool unchanged to 1/2 higher. Corn—Corn ruled easier along with wheat. The main feature was liquidation by those who bought yesterday. Weather was favorable for movement and although receipts were small general belief prevail- ed arrivals would soon be materially in- creased. December closed 1/2c lower. Cash sales here 100,000 bushels. At the seaboard twelve boat loads were taken. Liverpool 1/2c higher.
Oats—In absence of support from lead- ing longs bullish enthusiasm disappeared from the pit and the market slumped along with a decline in price. Weakness was accentuated by profit taking by local hold- ers. Receipts were smaller than expected and each situation showed consid- erable improvement, but demand was scattered and not sufficient to prevent decline. December closed 1/2c lower.
Flour—Market firm and unchanged. Winter patents, \$1.00 1/2; straights, \$1.00 1/2; 1st; spring patents, \$1.00 1/2; straights, \$1.00 1/2; bakers, \$1.00 1/2.

LIVESTOCK.
Cattle—To day's receipts of 500 were suf- ficient for Saturday and sales were made at unchanged prices. This week's offer- ings sold better than usual, although prices are not much different from those of a week ago. Good to prime, \$5.10; 5.50; poor to medium, \$4.50; stockers, \$2.00; 4.15; cows, \$1.50; 4.25; Texans, \$2.75; 3.50.
Hogs—Receipts, 2,500. With liberal sup- ply to day, prices were lower, trade being fairly active at an average decline of 50 lbs. There has been a steady, rapid in- crease in receipts for several weeks, but supplies continue smaller than last year and much less than two years ago. Mixed and butchers', \$1.50 1/2; good to choice, \$1.50 1/2; rough heavy, \$1.50 1/2; bulk of sales, \$1.50 1/2.
Sheep—Receipts, 2,000. Trade fairly good to day on the basis of recent prices. Sheep have sold considerably higher for best lots, while best lambs sold 35c lower than last week. Sheep, \$2.75; 4.25; lambs, \$4.00; 5.50.

A number of Jacksonville people have received invitations for the marriage of Miss Lillian Catherine McCarthy to Mr. Raymond Carleton Dudley, in St. Paul's church, Chicago, Wednesday, Dec. 2, at 8:30 p. m. Mr. Dudley is a brother of Miss Grace E. Dudley and she is to be one of the bridesmaids.

Special discount satisfactory to all buyers of Herman's celebrated millinery.

AT THE GRAND.

As the scenic production carried by the Whitney Opera company on tour this season is the original production of "When Johnny Comes Marching Home" that was used during the New York and Chicago engagements, two sixty-foot baggage cars are required for the transportation of the scenery and many electrical effects, which are in evidence at every performance. At the Grand Tuesday, Nov. 24.

GAVE A SEWING.

Mrs. E. E. Webster entertained at a sewing Saturday afternoon at her home on West Lafayette avenue in honor of her guest, Mrs. Akers, of Havana, and also the members of the kindergarten board. The afternoon was most pleasantly spent and the hostess was presented with a neatly bound volume by the board in appreciation of the interest she has manifested in the work of the kindergarten.

Quite Comfortable

"Liquid comfort" is not the only good. There's solid satisfaction—real, lasting benefit in

"IDEAL" COAL

The excellence of this fuel is proved by the large number of coal users who would rather have "Ideal" than any other.

Best way to understand this is to send us an order—for a bushel at 12 cents, or a ton at \$3.00. "The proof of the pudding" is—the way the pudding's cooked. "Ideal" coal proves the pudding—every time. Makes cooking cheerful. Costs but little.

Wood fires will be acceptable during these damp, chilly evenings and mornings.

THE DEATH RECORD.

BRUCE.

Mrs. Henrietta Bruce died at her home in Portland, Ore., recently after a long illness. She was an aunt of H. J. Kennedy, who resides on East Morton avenue.

STEPPERMAN.

Mrs. L. Brune Saturday received a message announcing the death of her brother-in-law, William Stepperman, at Moccasin, Effingham county, Ill. Mrs. Brune left yesterday to attend the funeral.

FUNERALS.

MOODY.

The funeral of Mrs. Frances E. Moody was held at the home of her daughter, Mrs. James S. Merrill, Saturday morning at 10 o'clock. There was a large attendance of relatives and friends, who had learned to love the decedent for her kindly ways in life and whose presence evidenced the sense of personal loss they felt at her death.

The services were in charge of Rev. J. F. John of Trinity Episcopal church, assisted by Rev. R. F. Thrapp of the Christian church. They were simple in character and the words spoken were deeply impressive and paid a fitting tribute to the memory of one whose life was unostentatious, but the influence of whose character will ever remain a precious memory.

Appropriate music was furnished by a choir consisting of Mrs. George Hollinger, Miss King, Miss Harlowe, John L. Johnson and Melville Kennedy.

Interment was in Jordan cemetery, near Chapin, where brief services were conducted by Rev. J. F. John. A choir from Chapin, consisting of Miss Hattie Bobbitt, Miss Lora Briggs, Mrs. F. P. McKinney, W. H. Evans and Arthur Eagan, furnished music at the grave.

The floral offerings were many and beautiful. They were in charge of Miss Vivian Merrill, Miss Jennie Newby and Miss Edna Filson.

The bearers were George Merrill, Charles B. Graff, George Hogan, Henry Brownlow, Joseph Lynch and Hugh Filson.

HAPPILY SURPRISED.

Mr. and Mrs. W. H. Braner were very pleasantly surprised Saturday evening by the unexpected arrival of Mrs. Braner's sister, Mrs. Mollie McRosey, of Bayside, Humboldt county, Colo. Mrs. McRosey has not been here for sixteen years and will remain ten days or two weeks visiting at the home of her sister and her mother, Mrs. William Hatfield, of Concord. Mrs. McRosey brought with her a number of interesting pictures, which show some of the experiences she has had in her western home. Among others is the picture of a hollowed out log with Mrs. McRosey on horseback, riding into it fifty feet and coming out at a knot hole.

Another picture shows fourteen cavalry men mounted on the top of an immense log. Another picture shows a shipment of four immense trees requiring a train of twenty-six cars, the height of the trees while resting in a horizontal position being greater than the height of the engine cab.

FUNERAL NOTICE.

The funeral of the late John M. Coons will be held at the First Baptist church in this city Sunday at 2 p. m. Interment will be in Liberty cemetery.

STEREOPTICON LECTURE.

The Ladies' Missionary society of the Jordan street Presbyterian church will give a lecture on "The Evils of Mormonism" at 7:30 this evening. The lecture will be illustrated by about seventy stereopticon views. Admission free.

MEMORIAL SERVICE.

The Sociedade Philanthropica Portuguesa will attend the annual memorial service of the order held at the Portuguese Presbyterian church this morning. Rev. R. F. Oressey, pastor of the church, will preach the discourse.

THE MATRIMONIAL RECORD.

Alfred Cannon, of this city, and Miss Katherin Denham, of Whitehall, went to Virginia Saturday morning, where they were married by Rev. G. C. Lenington at 10 o'clock.

This will come as a great surprise to their friends, as no one knew of their contemplated wedding until their return Saturday afternoon. Both are young people well known to many here, where they are very popular among their friends. The groom has been in the employ of the Illinois Telephone company as installer and besides being a capable and competent workman enjoys the confidence of his employers. The bride has lived in Whitehall and is a very highly respected young lady of that place. They will reside in this city.

ATKINS-MERKLIN.

H. R. Atkins and Miss Francis J. Merklin were married recently at the home of the bride in Petersburg. Rev. William Futterer, pastor of St. Peter's Catholic church, pronounced the wedding ceremony in the presence of the relatives of the contracting parties. The groom is an engineer on the C. & P. & St. L. railroad and has made Petersburg his home for a number of years and bears the reputation of being a perfect gentleman, strictly honest and industrious. The bride has been employed for a number of years as bookkeeper at the Petersburg bottling works.

Mr. Atkins' former home was in this city, where he formerly resided with his parents on East College avenue. He is a brother of H. F. and J. D. Atkins, who both reside here.

LAURIE-HEALEY.

John H. Laurie, of the county, and Miss Mary Healey, of this city, were married recently at Mt. Sterling. The wedding was something of a surprise to their friends, but congratulations are just as hearty. They are to reside on a farm northeast of the city Saturday a number of people living in the neighborhood gave them a rousing charivari.

FOOTBALL GAMES.

The Jacksonville high school football team played a game with the Bloomington high school Saturday afternoon at West Side park. The officials declared the game won by Jacksonville, 12 to 11. The visitors, however, filed a protest, claiming the game 16 to 12. A report of the game will be given later.

The team from the School for the Deaf defeated the Havana high school team, 75 to 0.

SOME RECIPES.

Cranberry Sauce.—Three cups cranberries, one and one-half cups sugar, one cup boiling water. Pick over and wash the berries. Put them in a granite sauce pan and add the sugar and water. Boil ten minutes. Do not stir them, as that breaks the berries. Skim and cool.

Scalloped Oysters.—One pint oysters,

four tablespoons oyster liquor, two tablespoons milk or cream; one and one-half cup cracker crumbs, one-half cup melted butter, salt and pepper. Put a thin layer in the bottom of a buttered shallow baking dish, cover with oysters and sprinkle with salt and pepper; add one-half each of oyster liquor and cream. Repeat and cover the top with the remaining crumbs. Bake thirty minutes in a hot oven. Never allow more than two layers of oysters; if three layers are used the middle layer will be apt to be underdone.

Glazed Sweet Potatoes.—Mash and pare

six medium-sized potatoes. Cook ten minutes in boiling salted water. Drain, cut in halves lengthwise and put in a buttered pan. Make a syrup by boiling three minutes one-half cup sugar, four tablespoons water and one tablespoon butter. Brush the potatoes with the syrup and bake fifteen minutes, basting twice with the remaining syrup.

Fruit Salad.—Two cups California

grapes cut in two and seeded, one cup celery cut in small pieces, one cup English walnut meats. Mix the grapes, celery and nuts and marinate with French dressing.

French Dressing.—One-half teaspoon

salt, one-fourth teaspoon pepper, two tablespoons vinegar, four tablespoons olive oil. Mix ingredients and stir until well blended.

TO DECIDE SUPREMACY.

The game last Friday between the freshmen and sophomores, which resulted in a tie, will be played off Monday afternoon. By mutual agreement the teams have decided to make the contest decisive and play off the tie. It is expected a large crowd will be present, as the game last Friday was interesting in the extreme.

POLICE NEWS.

W. Moore, a stranger in Jacksonville, was arrested yesterday by Policeman Trahey. Moore was put off a street car at the Junction for not paying and then proceeded to throw a brick through the car window.

P. Wessel was arrested by Captain Kennedy and Policeman Fernandes for drunkenness and disorderly conduct.

John Shay was taken in by Captain Kennedy and Policeman Powers for drunkenness.
